

Custom Design/Pattern/Color

How your design inspiration becomes your DuPont™ Tedlar® wallcovering reality

The custom design option has been established to allow you to economically develop custom DuPont™ Tedlar® Wallcovering. You have the creativity and ability to create your design and color with the durability you demand.

Just Follow These Simple Steps:

- **Get Inspired:** Supply photos, patterns, anything that we need to create a unique pattern
- **When Making a Submission:** Discuss as many details of your ideas and that will then allow us to provide you with the design to meet them
- **Quantity and Timeline:** Provide us with potential quantity and timeline when wallcovering is needed
- **Creation:** With your inspiration and needs in mind, a professional staff now can begin the process of transferring them into a finished wallcovering reality
- **Sample:** You will have a prototype sample in hand 10-15 business days to review
- **Manufacturing:** Manufactured in 4-6 weeks of approval (*may vary by design*)

Tedlar® Wallcoverings only by DuPont™ “Style that Endures”
