DuPont[™] Tedlar[™] Wallcoverings
www.endurewalls.com

Keeping it clean and hygienic.
 WHAT YOU NEED TO KNOW.

Whether its germs, permanent marker or chocolate sauce, maintaining pristine walls can be a challenge for some, but not for Tedlar[™] Wallcoverings. For more than 50 years, DuPont[™] Tedlar[®] PVF technology has been a leader in the industry for protective surfaces and is now applying this proven technology to its line of Tedlar[™] Wallcoverings. We have the classic designs you love as well as the cleanability and durability you need to maximize your projects and business.

TYPE I AND TYPE II WALLCOVERINGS THAT EXCEED TYPE III DURABILITY

• **Bacteria, Mold and Mildew Resistant.** Tedlar[™] Wallcoverings is not degraded by bacteria, mold or mildew, and it does not provide nutrients to assist growth. It's so good its Greenguard Mold Validated.

• **Chemical Resistant.** Because Tedlar[™] Wallcoverings holds up to Bleach, Alcohol and Alkalis cleaners, you can disinfect easily. Proven to withstand 30 years in a high traffic area of a hospital and still look like new.

• **Hygienic.** Tedlar[™] Wallcoverings ability to stand up to the harshest cleaning chemicals means you have easy-to-clean walls that will assist in maintaining a hygienic environment for years to come.

• **Stain Proof.** The chart on the back indicates a variety of stains that are likely to be encountered in high traffic areas and lists the most effective cleaning agents for easy removal. Repeated heavy cleaning of stains has no effect on Tedlar[™] Wallcoverings.

• **Indoor Air Quality.** Tedlar[™] Wallcoverings are Greenguard Gold IAQ certified. It meets strict chemical emissions limits and has been tested for more than 10,000 chemicals making it perfect for all your projects, including schools and healthcare facilities with sensitive individuals.

Made in the USA.

CAN YOU CLEAN IT? YES YOU CAN. SEE WHAT IT TAKES.
